CRAFTED BY PASSION

THE ALL-NEW GEEELY MONJARD

SYMPHONY OF ARTISTRY AND TECHNOLOGY

The new Geely Monjro is an innovation in design and a marvel of technology.

EXTERIOR

WITH ITS CLEAN AND PRECISE FEATURES, THE LUXURIOUSLY DESIGNED MONJARO IS A COMMANDING PRESENCE ON THE ROAD.

EXTERIOR COLORS

The new Geely Monjaro is available in an array of striking colors.

PEARL BLACK

CRYSTAL TURQUOISE

AURORA SILVER

STORM GRAY

PEARL WHITE

"INTERSTELLAR TRAVEL" WAISTLINE

The luxuriously streamlined design generates passion that is undeniably singular, evoking a waistline that runs through and shapes the body's silhouette, almost like the imprint left after an interstellar journey.

"MILKY WAY SURGE" FRONT FACE

A surge is a dynamic state in which material constantly emerges and is full of power. The front view, with its "Milky Way Surge" look, implies a constant emergence of energy, setting off the tide of the universe. It flows as an embodiment of the symphony of time and space.

“AURORA MATRIX”

FULL-WIDTH HORIZONTAL TAILLIGHTS

Every spot in the taillights sparkles with a cosmic aurora, and countless light spots are connected in an array, releasing infinite energy.

Rear-crossing pulse matrix taillight

Streamlined design

PANORAMIC SUNROOF

INTERIOR

THE ELEGANTLY DESIGNED MONJARO INTERIOR COMES IN A CHOICE OF COLORS THAT COMBINE TRADITIONAL INSPIRATIONS WITH ELEMENTS FROM NATURE.

INTERIOR COLORS

Elegance is a given with the choice of interior colors.

BESPOKE "CRYSTAL TURQUOISE"

Continuing the theme of combining tradition and nature, the Crystal Turquoise color is inspired by the green of mountains, combining traditional porcelain with natural emerald.

LUXURY FEATURES

A MULTITUDE OF TINY DETAILS CREATE THE PICTURE.
THE LUXURIOUS DETAILS OF THE MONJARO ARE WHAT
MAKE IT SO DISTINCTIVE.

CMA - WORLD-CLASS MODULAR ARCHITECTURE

WORLD-CLASS CMA WITH

First-class Engine: High-power 2.0TDi BAT high-performance powertrain, High-power 2.0TDi engine = 350 Nm 235HP, 0-100 KM/H: 7.7 S.

Transmission: High-quality Aisin BAT transmission featuring excellent energy-saving performance and maintenance-free life span.

In addition to CMA, 2.0TDi engine and Aisin BAT transmission, the Monjaro is also equipped with the latest BorgWarner Intelligent 4x4 System (Sixth Generation).

High-quality Aisin BAT transmission featuring excellent energy-saving performance.

Highly scalable compact module architecture (CMA)

**WTCR World Champion-class
Drive E 2.0TD Engine**

ENVIRONMENTALLY-FRIENDLY SUEDE

The Monjaro is equipped with eco-friendly suede, which is delicate to the touch, non-toxic and odorless, offering you a high-quality luxury cabin.

Bose Bespoke Active Noise Cancellation (ANC) Audio

Three Temperature Zone Fully-Automatic Health Air Conditioner

FULLY-FITTED ZERO PRESSURE MULTI-FUNCTIONAL SEAT

The multi-functional seats feature comprehensive and user-friendly functions, including

- 8-way power adjustment to meet different driving preferences and needs
- Ventilated seats so no discomfort in summer
- Position memory for exclusive enjoyment
- Welcoming function, which makes climbing in and out more comfortable

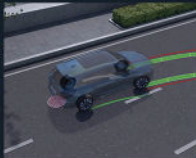

TECHNOLOGY

540° TRANSPARENT CHASSIS

Because 360° isn't enough, the Model's 540° camera for thorough chassis coverage is preferable. It helps see complex conditions underneath the chassis for added confidence in tricky driving situations.

Head-up Display

540° transparent chassis

THREE INDEPENDENT HIGH-DEFINITION LARGE SCREENS

The Monaro is not limited to the traditional 12.3-inch center screen, but a deluxe screen with a width equaling 1 meter in length.

HIGHWAY ASSIST SYSTEM

- Correcting unintentional lane crossing
- Avoiding straying from lanes at high speed
- Reducing long distance driving on highway
- Following the car in front from stationary state (0 km/h)

SAFETY

HIGH-STRENGTH CAGE BODY

With its CMA architecture, the Mondeo has 785M high-strength steel in the body, which offers 5.2 times resistance to roof crushing.

INTELLIGENT AVOIDANCE OF LARGE VEHICLES

When overtaking a large vehicle in the next lane, it deviates up to 20 cm to the other side within the lane to ensure safety.

The extensive safety features also include active risk avoidance and provide for functions like

Rear Collision Warning (RCW)

Rear Crossing Traffic Alert (RCTA)

Blind Spot Detection (BSD)

Rear Object Warning (ROW)
